EDUCATION

The LNM Institute of Information Technology
B.Tech in Communication and Computer Engineering (CGPA - 7.83)

Jaipur, Rajasthan
2024 – Expected 2028

St. Mary's Public School
High School

Kashipur, Uttarakhand
2022 – 2023

CODING PROFILES

GeeksForGeeks (180+ Questions) [geeksforgeeks.org/user/piyushagarwal-55/](https://www.geeksforgeeks.org/user/piyushagarwal-55/)

LeetCode (130+ Questions): leetcode.com/piyushagarwal-55/

Codeforces (200+ Questions): codeforces.com/profile/piyushagarwal-5/

TECHNICAL SKILLS

Languages: Python, C/C++, JavaScript, HTML/CSS

Frameworks: React, Node.js, Next.js, Express, Tailwind CSS, Zod, Bcryptjs, React Native (Expo)

Databases: MongoDB, PostgreSQL

PROJECTS

LNMIIT Carpool App | *React Native, TypeScript, Supabase, Socket.IO*

[Link](#)

- Built a ride-sharing platform with ride creation, seat management, real-time ride search, and request-to-join functionality.
- Implemented driver-side request approval flow, ride history tracking and user profiles with support for uploading profile images.
- Integrated a group messaging system using Socket.IO to enable real-time chat among confirmed co-passengers.
- Added push notifications for ride updates and requests, enhancing user responsiveness.

Gadget Store | *ReactJS, ExpressJS, MongoDB, TailwindCSS*

[Link](#)

- Designed and implemented a full-stack e-commerce web platform supporting product browsing, secure checkout, and real-time order tracking.
- Integrated Braintree for secure payment processing, and built a dynamic admin dashboard for managing inventory and order fulfillment.
- Leveraged React.js and MongoDB for scalable architecture and real-time cart, user, and order data operations

Hostel Management System | *ExpressJS, MongoDB, EJS, CSS*

[Link](#)

- Developed a multi-role complaint system with secure RBAC and user-specific complaint dashboards.
- Implemented status-based tracking and protected routes with 30-day auto-history retention.
- Enabled wardens to update, resolve, and archive complaints dynamically through admin interface.

EXPERIENCE

Blockchain Intern

June 2025 – July 2025

Block se Block (Remote)

[Link](#)

- Built an interactive blockchain simulation in ReactJS demonstrating PoW and PoS mechanisms.
- Deployed smart contracts in Rust for the Internet Computer Protocol (ICP) using canisters.
- Built a full-featured social media DApp, using React and Rust on the ICP blockchain, supporting decentralized posting, feeds, and user profiles.

Web Developer - Cipher Club

May 2025 – Present

LNMIIT

[Link](#)

- Developed and deployed a high-impact club website using Next.js and TailwindCSS.
- Enhanced UX with animated text and responsive design for cross-device compatibility.
- Handled end-to-end architecture, focusing on performance and clean code structure.
